1. Problem Title : Digital Complaint Management System

STRUCTURAL DESIGN

2. Class diagram

BEHAVIUIORAL DESIGN

3. Use-Case Diagram

a. List of actors

1. **User** : Submits complaint and tracks status
2. **Officer** : Handles and Resolves complaints
3. **Admin** : Assigns complaints and monitors system
4. **System** : Manages data and workflow

b. List of Use-cases

1. **Submit Complaint**

User submits a complaint through the system.

2. **View Complaint Status**

User checks the current status of a complaint.

3. **Assign Complaint**

Admin assigns a complaint to an officer.

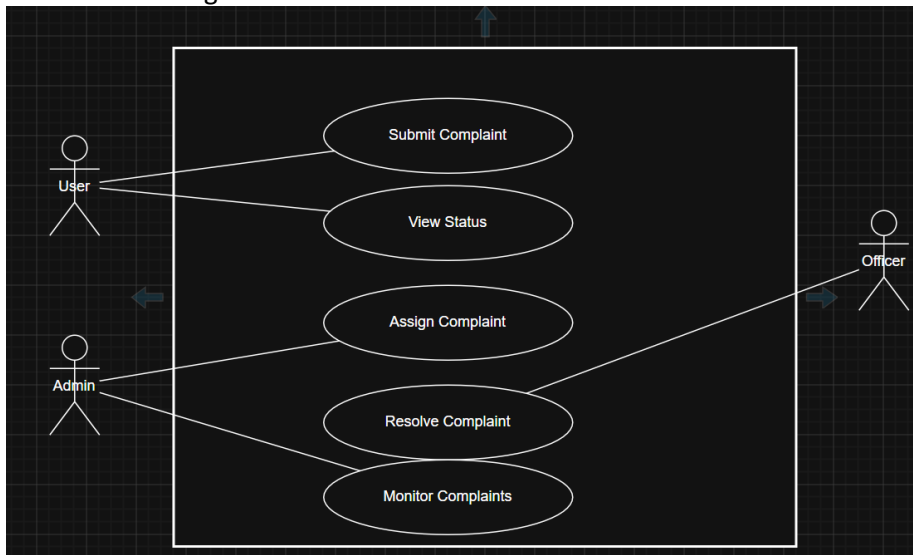

4. **Resolve Complaint**

Officer resolves the assigned complaint.

5. **Monitor Complaints**

Admin monitors all complaint activities.

c. Use case Diagram

4. Sequence diagram (use UML notations)

a. A user submits a complaint through the system.

The system stores the complaint and notifies the admin.

The admin assigns the complaint to an officer.

The officer resolves the complaint.

The system updates the status, and the user views the updated status.
